Re: BJC Health System/Saint Luke's Health System Integration

Dear Supplier:

BJC Health System ("BJC") is pleased to welcome Saint Luke's Health System ("SLHS") into the BJC family.

In coming together as an integrated, academic, and patient-centric Missouri-based health system, we remain committed to delivering extraordinary care to the patients and communities we serve. As an integrated health system, BJC will operate as a single organization serving two regions: the Eastern Region serving St. Louis, eastern Missouri and southern Illinois, and the Western Region serving Kansas City, western Missouri and eastern Kansas.

Given the strength of our brands in each market, we will retain separate branding in each region – BJC HealthCare in the Eastern Region and Saint Luke's Health System in the Western Region—with all efforts aligned under the BJC umbrella and a shared commitment to improving the health of our communities and creating the region's premier destination to practice world-class medicine.

As a supplier to BJC and/or SLHS, your continuing support during our integration is key to ensuring that our patients continue to receive quality, affordable health care. Over time, we will move toward a focused sourcing model, combining the expertise of both the BJC and SLHS teams. Until then, however, please continue to work with your normal contacts at either BJC or SLHS.

There will be no immediate change to purchase order placement, shipping policy, ship to location or accounts payable. We expect that you will continue to honor all open purchase orders and other contractual obligations.

We appreciate your continued support of our efforts to bring quality, affordable health care to our patients.

Sincerely,
