## **COMPUTER—Desktop or Laptop**

### Recording results in mySaintLuke's

V. 2—2/7/22

It is essential to commit to taking and recording your vitals, and submitting this information into the **COVID-19 Discharged Patient Condition Monitoring** questionnaire in your mySaintLuke's patient portal account. Please submit results once a day at 9 a.m. Follow these instructions to log in to your account and enter your results using a desktop or laptop computer:

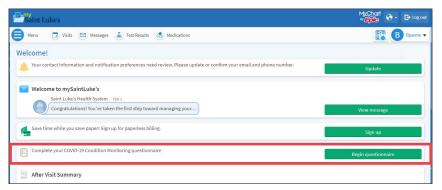

3

Log in to your mySaintLuke's account at mysaintlukeskc.org

Reminder: Your password must contain a special character. If you can't remember your password or username click on Forgot Password or Username and follow the prompts.

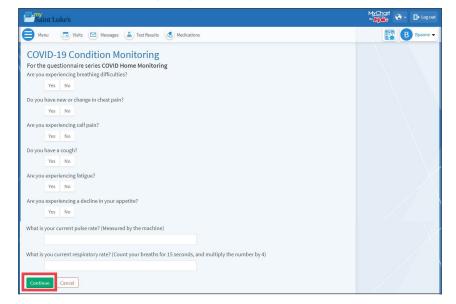

On the Welcome screen, locate the Tasks assigned to you and click the green View Tasks button

On the COVID-19 Condition Monitoring screen, complete the questionnaire as instructed on screen. Click the green Continue button when finished with each page.

Responding to the questionnaire:

- For yes/no questions, click the **Yes button** or the **No button**.
- For the temperature, oxygen, pulse rate, and respiratory rate questions, click in the box to enter your information.

Temperature = Reading from thermometer

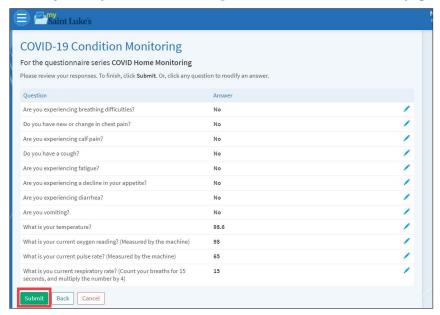

Oxygen reading = Sp02% number from pulse oximeter device

Pulse rate = PRbpm number from pulse oximeter device

Respiratory rate = Number of breaths in a minute

For information on how to take these readings, see the Saint Luke's COVID-19 Care Companion Program brochure.

### Review your responses and click the green Submit button on the last page.

Your care team is notified each time your questionnaire data is submitted. They will contact you if they have questions or need additional information following each submission.

#### **IMPORTANT NOTE**

You will have one task assigned to you each day. Please take your vitals and complete the questionnaire once a day at 9 a.m. The task will be active three hours before and after the assigned time, but it is important to try and complete the task as close to the assigned time as possible. If you do not complete the task within the designated time frame, a care provider will contact you to collect the necessary information.

# If you experience any of these symptoms, call 9-1-1 or go directly to the Emergency Room.

- Bluish tint to skin, lips, or nail beds
- Difficulty staying awake
- Seem confused or disoriented
